FLOATING LVT Care and Maintenance

MAINTENANCE:

Dust-mop or broom can be used for daily maintenance. When necessary, clean with a MOIST cloth or mop and a neutral PH cleaner – heavy use of detergent cleaners will leave a residue and, over time, lead to a cloudy film. Spills should be clean up immediately.

NEVER USE floor polish or floor cleaning wax, oil soaps, no of the shaves clearing solution and etc. These products can damage and/or leave a film on the flooring. This is not a defect in the floor.

TIPS:

- Always use felt tip protectors on all furniture legs/feet - Entryway/walk off mats are recommended

Warning:

-Never use rubber protective mats. - Area rugs are recommended - Keep pet nails trimmed - Sharp shoe-heels (e.g. high-heels) may dent the floors - Never slide furniture across a floor without pads - Keep floors clean.

Note - The suggestions mentioned above are for general practice. In case of a particular project, it is recommended that a professional installer/fabricator/restorer is consulted. It is also recommended that cleaning solutions are tried in an isolated area to check for desired results.

NTI disclaims any liability towards the use of any care & maintenance products
